ABSORBING

COURSE MANAGEMENT FEATURES THAT MATCH YOUR WORKFLOW

Absorb Anywhere LMS...

Lets you work the way you need to. For every learning objective, for every department, for every day you have different needs. Absorb allows you to be flexible, responsive and agile. Absorb respects the different layers and stakeholders in your organization. We make it easy for you to do what you need to do. Without calling us!

You can set course activation dates, expiry dates (from date of enrollment if needed), track educational units, restrict access, allow for self enrolment, combine instructor led with online, set up multiple repeating sessions, invite people

to webinars, set up discussions, get feedback, utilize ecommerce, sell extensions, duplicate courses, track competencies, set prerequisites, build custom glossaries, and much, much more.

You can use any, or none of the Absorb's features and even change your mind later without having to go the help menu or call I.T.

Learner

FEATURES & BENEFITS

Meets all aspects of computer literacy, your advanced users won't be insulted and your less computer literate users will love you

Single sign on

Discussion forums, user feedback, surveys and much more

View calendar events

Add courses and events to Outlook or your calendar tool with automated waitlist management

Users can access resources such as documents, pre course material, external links, and make them role based

Bookmarking, searchable catalogues

Automated email course reminders as well as nudges, warnings, expirations and congratulations.

Your learners can input any external training records

Full printable transcripts with credits earned and certifications (frame able, wall and wallet sized)

Print certificates and records of completion

An interface that users like and keeps them coming back. Including the ability to work in the language of their choice.

Languages include:

English, Spanish, Japanese, Russian, French, simplified Chinese and many others.

Are you using Articulate, Captivate, Lectora or other authoring tools? Great! We make it easy for you to integrate those courses with Absorb.

WHY ABSORB?

OUR CLIENTS TELL YOU

"Absorb Anywhere has been an incredible asset for us. It's popular with both trainers and trainees because it's so seamless and easy to use. It's really taken our entire online training experience to the next level."

Peter Furnish
Director Retail Experience for
Virgin Mobile Canada

"After looking at over 20 Learning Management Systems we came across Absorb Anywhere and knew instantly that this Learning Management System would be the solution of choice for providing training to our tens of thousands of members."

Dean Starkey
VP National Academy
of Sports Medicine

"Absorb has the best and most attentive customer service I've ever dealt with. You have a great product, but it's your service and attentiveness that really leaves a great impression. I also appreciate your willingness to build out solutions, customizations, and explore new features and areas of support. Absorb is the kind of organization I'd like to have a relationship no matter where life takes me-- that's how good the experience and your services has been."

Cecely Valderama
TRS Texas

"We don't look at Absorb as an out-of-the-box LMS. We see it as a proven solution, customized to meet our business needs. We have a widely-distributed base of ambassadors around the world, who learn about our products in a variety of non-traditional ways. Together with Absorb we intend to deliver tools to sales associates when and where they can be used to drive sales globally."

Scott Kolbe
Global Sales Development
for Oakley

"Within two weeks, our Absorb Anywhere LMS was branded and fully operational, accompanied by a level of customer service that is consistent with the service we strive to provide our internal and external customers. Blatant Media's pricing was so reasonable that we won executive support to invest in the proper technology rather than waste time and money on a home-grown system."
